NATURE'S Choice®

GL-5 Limited Slip Gear Oil

Nature's Choice® GL-5 LS 80W-90 is specialty formulated oil, blended to meet service fill applications requiring a limited slip characteristic not in standard GL-5 gear oils. Limited Slip Gear Oils are used for the lubrication of gears operated under severe conditions, including automotive applications. High quality HVI base stocks blended with a sulfur-phosphorous extreme pressure additive package provide superior performance including anti-weld, anti-scuff, and anti-wear properties.

Nature's Choice® GL-5 Limited Slip Gear Oils have multi-grade characteristics and are recommended for hypoid gears in moderate and severe service, including shock-loading, and some manual transmissions. GL-5 Gear Oils meet MIL-L-2105D, Mack GO-J, Rockwell 0-76-D (80W-90).

Nature's Choice® GL-5 Limited Slip Gear Oils also meet API category MT-1 (PG-1) for truck manual transmissions and proposed category PG-2 for high-speed final drives in trucks, buses and other heavy duty equipment.

The Nature's Choice® product line was developed in response to President Clinton's Executive Order 13101 which mandated the use of motor oils with re-refined content for government use. Since that time the Nature's Choice® product line has grown from motor oils to include many other types of lubrication. Blending virgin and re-refined base stocks with quality additive chemistry, Nature's Choice® brand products are able to meet the top performance grades required for today's lubrication requirements, while being more environmentally friendly.

Typical Properties:

Product:	Nature's Choice GL-5 LS Gear Oil
Classification	Limited Slip GL-5 SAE 80W-90
Product Code	101461
Kinematic Viscosity @ 100 °C cSt (ASTM D-445)	14.0
Kinematic Viscosity @ 40 °C cSt (ASTM D-445)	130.0
Viscosity Index (ASTM D-2270)	100
API Gravity (ASTM D-1298)	27.5
