Venom® SAE 50 Synthetic Manual Transmission Fluid

Venom® SAE 50 synthetic manual transmission fluid is a non-EP synthetic extended drain transmission fluid in on and off-road equipment transmissions. Venom® SAE 50 synthetic manual transmission fluid uses field proven additive technology that demonstrates outstanding wear protection and oxidation stability. This synthetic transmission fluid has been field tested to allow drain intervals up to 500,000 miles.

Equipment recommendations: Venom SAE 50 Synthetic Manual Transmission Fluid is formulated to meet the following equipment specifications.

- Mack TO-A Plus
- Eaton Roadranger PS-081
- ArvinMeritor O-81
- Navistar TMS-6816
- Eaton PS-164 Rev.7
- API GL-1

Always follow manufacturers' recommendations for specific specifications and viscosity requirements.

Typical Properties:

Product: Venom SAE 50 Synthetic Manual Transmission Fluid	
Product Code	1325
Kinematic Viscosity @ 100 °C cSt (ASTM D-445)	21.5
Kinematic Viscosity @ 40 °C cSt (ASTM D-445)	156.3
Viscosity Index (ASTM D-2270)	163
API Gravity (ASTM D-1298)	31.9
